

NASA Acquisition Pollution Prevention Program

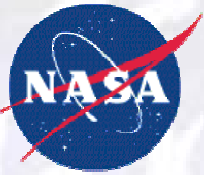

**International Pollution Prevention Workshop
Cape Canaveral, Florida
September 22-23, 2004**

Christina M. Brown

**NASA Acquisition Pollution Prevention
Program Manager
Kennedy Space Center, FL**

Safety Brief

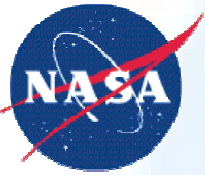

NASA AP2 Program

Acquisition Pollution Prevention Program

Mission:

To identify and validate pollution prevention technologies through joint activities that enhances mission readiness and reduces risk while minimizing duplication and associated costs.

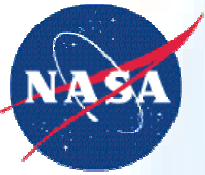

NASA AP2 Program

Acquisition Pollution Prevention Program

AP2 program formally established in 1998 as an Agency

Principal Center function

- Program Office is located within the Spaceport Engineering and Technology Directorate at KSC
- Identify common problems and find shared solutions through partnerships

NASA AP2 Program

Acquisition Pollution Prevention Program

NASA

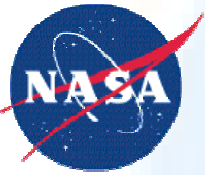

Identify, scope, and execute P2 projects among NASA missions and centers

DOD

Member of Joint Group on Pollution Prevention (JG-PP), a mature partnership reporting to the Joint Logistics Commanders Partner with Air Force Space Command (similar processes, infrastructure and requirements to NASA)

International

Portuguese Center for Pollution Prevention (C3P) program serves as a liaison entity within the European Union.

NASA AP2 Program

Acquisition Pollution Prevention Program

International Pollution Prevention Workshop

- Opportunity for our current project teams to get together for a face to face technical exchange
- Forum to showcase improved technologies and share lessons learned
- Identify new joint opportunities

“Joint partners in preserving resources with environmental technology”

Contact Information

The NASA AP2 office is managed by Christina M. Brown with support contractors from International Trade Bridge, Inc. (ITB).
